## INDEPENDENT AUDITORS' REPORT

To the Board of Directors  
Eagle Bend Metropolitan District  
Arapahoe County, Colorado

We have audited the accompanying financial statements of the governmental activities, business-type activities and each major fund of Eagle Bend Metropolitan District (the "District") as of and for the year ended December 31, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

### ***Management's Responsibility for the Financial Statements***

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### ***Auditor's Responsibility***

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities and each major fund of Eagle Bend Metropolitan District as of December 31, 2016, and the respective changes in financial position, and where applicable, cash flows, and the budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

### *Required Supplementary Information*

Management has omitted Management's Discussion and Analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

### *Other Information*

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the District's basic financial statements. The supplemental information as listed in the table of contents is presented for legal compliance and purposes of additional analysis and are not a required part of the basic financial statements.

The supplemental information on pages 24 through 26 are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplemental information on pages 24 through 26 are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The Schedule of Debt Service Requirements to Maturity on pages 27 through 28 and the Summary of Assessed Valuation, Mill Levy and Property Taxes Collected on page 29 are presented for purposes of additional analysis and are not a required part of the basic financial statements. This information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

EAGLE BEND METROPOLITAN DISTRICT

RECONCILIATION OF THE STATEMENT OF REVENUE, EXPENDITURES  
AND CHANGES IN FUND BALANCE OF GOVERNMENTAL FUNDS  
TO THE STATEMENT OF ACTIVITIES  
For the Year Ended December 31, 2016

Amounts reported for governmental activities in the Statement of Activities are different because:

Net change in fund balances - Total governmental funds	607,323
--	---------

Governmental funds report capital outlays as expenditures. In the statement of activities capital outlay is not reported as an expenditure. However, the statement of activities will report as depreciation expense the allocation of the cost of any depreciable asset over the estimated useful lives of the asset. Therefore, this is the amount of capital outlay, net of depreciation, in the current period.

Depreciation expense	(323,434)
----------------------	-----------

The issuance of long-term debt (e.g., bonds, leases and loans) provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on the net assets. Also, governmental funds report the effect of premiums, discounts and similar items when debt is first issued, whereas these amounts are deferred and amortized in the statement of activities.

Loan proceeds	
Bond proceeds	(15,030,000)
Payment to escrow agent net of current interest	15,528,926
Original issue discount and original issue premium, net	(994,822)
Bond insurance premium	55,850
Bond insurance amortization	(4,478)
Amortization of loss on refunding	(88,191)
Original issue discount and original issue premium, net	31,912
Bond principal payment	-
Loan principal payment	805,000
Redemption costs	-

Some expenses in the statement of activities do not require the use of current financial resources and, therefore are not reported as expenditures in governmental funds.

Change in accrued interest on bonds payable	<u>(51,989)</u>
---	-----------------

Change in Net Position of Governmental Activities	<u><u>536,097</u></u>
---	-----------------------

# EAGLE BEND METROPOLITAN DISTRICT

## Notes to Financial Statements December 31, 2016

### Note 1: Reporting Entity

The Eagle Bend Metropolitan District (“the District”) was organized on November 3, 1998 in the City of Aurora, Colorado as a quasi-municipal organization established under the State of Colorado Special District Act. The District was established to develop and provide streets, water and sanitation, safety controls, television relay, translator and parks and recreation services to users in the service area. The District’s primary revenues are property taxes. The District is governed by an elected Board of Directors.

The Eagle Bend Metropolitan District Water Activity Enterprise (“the Enterprise”) was established in 2008 as a “water activity enterprise” of the District pursuant to Title 37, Article 45.1, Part 1, Colorado Revised Statutes (“the Act”). The Enterprise will continue all of the District’s water activities, including but not limited to water acquisition or water projects or facility activities, including the construction, operation, repair and replacement of water, wastewater or storm water facilities, using revenues generated by such water activities and held and managed in the District’s water enterprise fund. Pursuant to the Act, the Enterprise is excluded from the provisions of Article X, Section 20 of the Colorado Constitution (see Note 6).

As required by accounting principles generally accepted in the United States of America (“GAAP”), these financial statements present the activities of the District, which is legally separate and financially independent of other state and local governments. The District follows the Governmental Accounting Standards Board (“GASB”) pronouncements which provide guidance for determining which governmental activities, organizations and functions should be included within the financial reporting entity. GASB sets forth the financial accountability of a governmental organization’s elected governing body as the basic criterion for including a possible component governmental organization in a primary government’s legal entity. Financial accountability includes, but is not limited to, appointment of a voting majority of the organization’s governing body, ability to impose its will on the organization, a potential for the organization to provide specific financial benefits or burdens and fiscal dependency. The pronouncements also require including a possible component unit if it would be misleading to exclude it.

The District is not financially accountable for any other organization. The District has no component units as defined by the GASB.

The District has no employees and all operations and administrative functions are contracted.

### Note 2: Summary of Significant Accounting Policies

The accounting policies of the District conform to GAAP as applicable to governmental units. GASB is the accepted standard setting body for establishing governmental accounting and financial reporting. The following is a summary of the more significant policies consistently applied in the preparation of financial statements.

# EAGLE BEND METROPOLITAN DISTRICT

## Notes to Financial Statements December 31, 2016

### Basis of Presentation

The accompanying financial statements are presented per GASB No. 34.

The government-wide financial statements (i.e. the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. For the most part, the effect of interfund activity has been removed from these statements. *Governmental activities*, which normally are supported by taxes and intergovernmental revenues, are reported separately from *business-type activities*, which rely to a significant extent on fees and charges for support.

The statement of net position reports all financial and capital resources of the District. The difference between the (a) assets and deferred outflows of resources and the (b) liabilities and deferred inflows of resources of the District is reported as net position.

The statement of activities demonstrates the degree to which the direct and indirect expenses of a given function or segment are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. *Program revenues* include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as *general revenues*.

Separate financial statements are provided for governmental and proprietary funds. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements. The District has no fiduciary funds.

### Measurement Focus, Basis of Accounting and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary fund financial statements. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of the related cash flows. Property taxes are recognized as revenues in the year for which they are collected.

Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be *available* when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. The material sources of revenue subject to accrual are property taxes and interest. Expenditures, other than interest on long-term obligations, are recorded when the liability is incurred or the long-term obligation is paid.

# EAGLE BEND METROPOLITAN DISTRICT

## Notes to Financial Statements December 31, 2016

The District reports the following major governmental funds:

General Fund - The General Fund is the general operating fund of the District. It is used to account for all financial resources not accounted for and reported in another fund.

Debt Service Fund - The Debt Service Fund is used to account for all financial resources that are restricted, committed or assigned to expenditures for principal, interest and other debt related costs.

The District reports the following major proprietary fund:

Water Enterprise Fund – The Water Enterprise Fund accounts for activities associated with the water distribution system.

The Enterprise Fund accounts for the operations that are financed and operated in a manner similar to private business enterprises, where the intent is that the costs of providing goods or services on a continuing basis be financed or recovered primarily through user charges.

Proprietary funds distinguish operating revenues and expenses from non-operating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with the proprietary fund's ongoing operations. Operating revenues consist of charges to customers for services provided. Operating expenses for proprietary funds include the cost of services, administrative expenses, and depreciation of assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses or capital contributions. The District's proprietary fund consists of the Water Enterprise Fund.

### Budgetary Accounting

Budgets are adopted on a non-GAAP basis for the proprietary fund. In accordance with the State Budget Law of Colorado, the District's Board of Directors holds public hearings in the fall of each year to approve the budget and appropriate the funds for the ensuing year. The District's Board of Directors can modify the budget by line item within the total appropriation without notification.

The appropriation can only be modified upon completion of notification and publication requirements. The budget includes each fund on its basis of accounting unless otherwise indicated. The appropriation is at the total fund expenditures level and lapses at year end.

### Statement of Cash Flows

For purposes of the statement of cash flows, the District considers cash deposits with an original maturity of three months or less to be cash equivalents. During 2016, the District incurred no noncash activities other than depreciation and amortization.

# EAGLE BEND METROPOLITAN DISTRICT

## Notes to Financial Statements December 31, 2016

### Assets, Liabilities, Deferred Outflows/Inflows and Net Position

#### Fair Value of Financial Instruments

The District's financial instruments include cash and cash equivalents, accounts receivable and accounts payable. The District estimates that the fair value of all financial instruments at December 31, 2016 does not differ materially from the aggregate carrying values of its financial instruments recorded in the accompanying balance sheet. The carrying amount of these financial instruments approximates fair value because of the short maturity of these instruments.

#### Deposits and Investments

The District's cash and cash equivalents are considered to be cash on hand and short-term investments with maturities of three months or less from the date of acquisition. Investments for the government are reported at fair value.

The District follows the practice of pooling cash and investments of all funds to maximize investment earnings. Except when required by trust or other agreements, all cash is deposited to and disbursed from a minimum number of bank accounts. Cash in excess of immediate operating requirements is pooled for deposit and investment flexibility. Investment earnings are allocated periodically to the participating funds based upon each funds' average equity balance in the total cash.

#### Estimates

The preparation of these financial statements in conformity with GAAP requires the District management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

#### Deferred Outflows/Inflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, *deferred outflows of resources*, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The District has one item that qualifies for reporting in this category. It is the deferred loss on refunding reported in the government-wide statement of net position. A deferred loss on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, *deferred inflows of resources*, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The District has one item that qualifies for reporting in this category. Property taxes for the current year but collectable in the subsequent year are deferred and recognized as an inflow of resources in the period that the amounts become available.

EAGLE BEND METROPOLITAN DISTRICT

Notes to Financial Statements  
December 31, 2016

Capital Assets

Capital assets, which include property, plant, equipment and infrastructure assets (e.g. roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the District as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the assets or materially extend the life of the assets are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related fixed assets, as applicable using the straight-line method. Depreciation on property that will remain assets of the District is reported on the Statement of Activities as a current charge. Improvements that will be conveyed to other governmental entities are classified as construction in progress and are not depreciated. Land is not depreciated.

Property, plant and equipment are depreciated using the straight-line method over the following estimated useful lives:

Landscaping	20 years
Wells and pipeline	40 years

Long-Term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bonds payable are reported net of the applicable bond premium or discount.

Prepaid Debt Insurance, Original Issue Discount and Loss on Refunding

Prepaid debt insurance and original issue premium from the Series 2016 Bonds are being amortized over the terms of the bonds using the effective interest method. Losses on refunding from the 2012 Loan and the 2016 Bonds are being amortized over the terms of the debt using the straight-line method. As of December 31, 2016, the District had accumulated amortization on the prepaid debt insurance, original issue premium and loss on refunding of \$1,884, \$33,557, and \$376,099, respectively.

# EAGLE BEND METROPOLITAN DISTRICT

## Notes to Financial Statements December 31, 2016

### Property Tax

Property taxes are levied by the District's Board of Directors. The levy is based on assessed valuations determined by the County Assessor generally as of January 1 of each year. The levy is normally set by December 15 by certification to the County Commissioners to put the tax lien on the individual properties as of January 1 of the following year. The County Treasurer collects the determined taxes during the ensuing calendar year. The taxes are payable by April or in equal installments, at the taxpayers' election, in February and June. Delinquent taxpayers are notified in July or August and the sales of the resultant tax liens on delinquent properties are generally held in November or December. The County Treasurer remits the taxes collected monthly to the District.

Property taxes, net of estimated uncollectible taxes, are recorded initially as deferred inflows in the year they are levied and measurable since they are not normally available nor are they budgeted as a resource until the subsequent year. The deferred property taxes are recorded as revenue in the subsequent year when they are available or collected.

### Fund Balance

Fund balance of governmental funds is reported in various categories based on the nature of any limitations requiring the use of resources for specific purposes. Because circumstances differ among governments, not every government or every governmental fund will present all of these components. The following classifications make the nature and extent of the constraints placed on a government's fund balance more transparent:

### Nonspendable Fund Balance

Nonspendable fund balance includes amounts that cannot be spent because they are either not spendable in form (such as inventory or prepaids) or are legally or contractually required to be maintained intact.

The nonspendable fund balance in the General Fund in the amount of \$4,334 represents prepaid expenditures.

### Restricted Fund Balance

The restricted fund balance includes amounts restricted for a specific purpose by external parties such as grantors, bondholders, constitutional provisions or enabling legislation.

The restricted fund balance in the General Fund represents Emergency Reserves that have been provided as required by Article X, Section 20 of the Constitution of the State of Colorado. A total of \$24,000 of the General Fund balance has been restricted in compliance with this requirement.

The restricted fund balance in the Debt Service Fund in the amount of \$217,508 is restricted for the payment of the debt service costs associated with the General Obligation Refunding Bonds (see Note 5).

## EAGLE BEND METROPOLITAN DISTRICT

### Notes to Financial Statements December 31, 2016

#### Committed Fund Balance

The portion of fund balance that can only be used for specific purposes pursuant to constraints imposed by a formal action of the government's highest level of decision-making authority, the Board of Directors. The constraint may be removed or changed only through formal action of the Board of Directors.

#### Assigned Fund Balance

Assigned fund balance includes amounts the District intends to use for a specific purpose. Intent can be expressed by the Board of Directors or by an official or body to which the Board of Directors delegates the authority.

The assigned fund balance in the General Fund in the amount of \$2,082,688 represents the amount for use in the budget for the year ending December 31, 2017.

#### Unassigned Fund Balance

Unassigned fund balance includes amounts that are available for any purpose. Positive amounts are reported only in the General Fund.

For the classification of Governmental Fund balances, the District considers an expenditure to be made from the most restrictive first when more than one classification is available.

#### Net Position

Net Position represents the difference between assets and deferred outflows of resources less liabilities and deferred inflows of resources. The District reports three categories of net position, as follows:

Net investment in capital assets – consists of net capital assets, except for construction in progress, reduced by outstanding balances of any related debt obligations and deferred inflows of resources attributable to the acquisition, construction, or improvement of those assets and increased by balances of deferred outflows or resources related to those assets.

Restricted net position – net position is considered restricted if their use is constrained to a particular purpose. Restrictions are imposed by external organizations such as federal or state laws. Restricted net position is reduced by liabilities and deferred inflows of resources related to the restricted assets.

Unrestricted net position – consists of all other net position that does not meet the definition of the above two components and is available for general use by the District.

When an expense is incurred for purposes for which both restricted and unrestricted net position are available, the District will use the most restrictive net position first.

EAGLE BEND METROPOLITAN DISTRICT

Notes to Financial Statements  
December 31, 2016

Note 3: Cash and Investments

As of December 31, 2016, cash and investments are classified in the accompanying financial statements as follows:

Statement of net position:

Cash and investments	\$ 4,411,079
Cash and investments - restricted	<u>216,373</u>
Total	\$ <u>4,627,452</u>

Cash and investments as of December 31, 2016, consist of the following:

Deposits with financial institutions	\$ 1,579,373
Investments - COLOTRUST	<u>3,048,079</u>
	\$ <u>4,627,452</u>

Deposits

Custodial Credit Risk

The Colorado Public Deposit Protection Act, (“PDPA”) requires that all units of local government deposit cash in eligible public depositories. State regulators determine eligibility. Amounts on deposit in excess of federal insurance levels must be collateralized. The eligible collateral is determined by the PDPA. PDPA allows the institution to create a single collateral pool for all public funds. The pool is to be maintained by another institution, or held in trust for all the uninsured public deposits as a group. The market value of the collateral must be at least equal to 102% of the aggregate uninsured deposits. The State Commissioners for banks and financial services are required by statute to monitor the naming of eligible depositories and reporting of the uninsured depositories and assets maintained in the collateral pools.

The District follows state statutes for deposits. None of the District’s deposits were exposed to custodial credit risk.

Investments

Investment Valuation

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

## EAGLE BEND METROPOLITAN DISTRICT

### Notes to Financial Statements December 31, 2016

The District has the following recurring fair value measurements as of December 31, 2016:

An external investment pool that records its investments at fair value. The investment in COLOTRUST is categorized as a Level 2 Investment.

#### Credit risk

The District investment policy requires that the District follow state statutes for investments. Colorado statutes specify the types of investments meeting defined rating and risk criteria in which local governments may invest. These investments include obligations of the United States and certain U.S. Government agency entities, certain money market funds, guaranteed investment contracts, and local government investment pools.

#### Custodial and Concentration of Credit Risk

None of the District's investments are subject to custodial or concentration of credit risk.

#### Interest Rate Risk

Colorado revised statutes limit investment maturities to five years or less unless formally approved by the Board of Directors.

As of December 31, 2016, the District had the following investments:

#### COLOTRUST

The local government investment pool, Colorado Local Government Liquid Asset Trust ("COLOTRUST") is rated AAAM by Standard and Poor's with a weighted average maturity of less than 60 days, and is a Level 2 investment under the fair value hierarchy. COLOTRUST is an investment trust/joint ventures established for local government entities in Colorado to pool surplus funds. The State Securities Commissioner administers and enforces all State statutes governing the Trust. The trust operates similarly to a money market fund with each share maintaining a value of \$1.00. The Trust offers shares in two portfolios, COLOTRUST PRIME and COLOTRUST PLUS+. Both investments consist of U.S. Treasury bills and notes and repurchase agreements collateralized by U.S. Treasury securities. COLOTRUST PLUS+ may also invest in certain obligations of U.S. government agencies, highest rated commercial paper and repurchase agreements collateralized by certain obligations of U.S. government agencies. Designated custodian banks provide safekeeping and depository services to the trusts. Substantially all securities owned by the trusts are held by the Federal Reserve Bank in the accounts maintained for the custodian banks. The custodians' internal records identify the investments owned by COLOTRUST. At December 31, 2016, the District had \$3,048,079 invested in COLOTRUST.

## EAGLE BEND METROPOLITAN DISTRICT

### Notes to Financial Statements December 31, 2016

Upon completion and acceptance, all of the governmental activities fixed assets except for the landscaping will be conveyed by the District to other local governments. The District will not be responsible for maintenance.

#### Note 5: Long-Term Debt

A description of the long-term obligations as of December 31, 2016, is as follows:

Series 2005 General Obligation Refunding Bonds – The District issued its Series 2005 bonds in the original principal amount of \$15,465,000. The bonds are subject to optional redemption on or after December 31, 2015 with no redemption premium, and subject to mandatory sinking fund requirements beginning December 1, 2021. The bonds carry coupon rates ranging from 4.50% to 5.00%. The bonds were issued to refund all the District's remaining Series 1999 subordinate bonds. The Series 2005 Bonds were fully defeased on April 20, 2016, with the issuance of the Series 2016 Bonds.

Series 2012 General Obligation Refunding Loan – On April 27, 2012, the District advanced its outstanding Series 2003 Bonds totaling \$17,625,000 with a \$19,000,000 loan. The loan carries a coupon rate of 3.39% and calls for interest payments on June 1<sup>st</sup> and December 1<sup>st</sup> commencing December 1, 2012. Principal payments are due annually on December 1<sup>st</sup> commencing December 1, 2012 through 2033. The loan is subject to optional redemption on or after April 27, 2022 with no redemption premium. The refunding resulted in a present value savings of approximately \$1,072,000 to the District.

Series 2016 General Obligation Refunding Bonds - On April 20, 2016, the District issued \$15,030,000 of General Obligation Refunding Bonds Series 2016 ("Series 2016 Bonds") to defease the District's Series 2005 Bonds. The Series 2016 Bonds bear interest at rates ranging from 3.125% to 5.00%, payable semiannually on each June 1 and December 1, commencing on June 1, 2016. The bonds are subject to a mandatory sinking fund redemption commencing on December 1, 2029. The Bonds are subject to an early redemption at the option of the District commencing December 1, 2026, at a price equal to the principal amount plus accrued interest without redemption premium. The Series 2016 Bonds scheduled to mature from December 1, 2029 through 2032 in the total amount of \$2,115,000 are subject to extraordinary redemption after July 20, 2016 through April 20, 2019 at a price equal to the principal amount plus accrued interest without redemption premium. The Series 2016 Bonds are rated by S&P at an underlying credit rating of "A-" with bond insurance from Build America Mutual with a rating of "AA" by S&P. Page 27 reflects the annual amortization of the Series 2016 Bonds.

EAGLE BEND METROPOLITAN DISTRICT

Notes to Financial Statements  
December 31, 2016

As a result of the issuance of the Series 2016 Bonds, the refunded bonds are considered to be defeased and the liabilities have been removed from the governmental activities column of the statement of net position. The reacquisition price of the old debt exceeded the net carrying amount by \$252,227. This amount is recorded as a deferred outflow and is being amortized over the life of the refunded Bonds. The refunding resulted in an economic gain of \$1,862,419 due to the average interest rate of the Series 2016 Bonds being lower than the refunded bonds.

The following is an analysis of changes in long-term debt for the period ending December 31, 2016:

	Balance 1/1/2016	Additions	Deletions	Balance 12/31/2016	Current Portion
2005 G.O. Bonds	\$ 15,465,000	\$ -	15,465,000	\$ -	\$ -
2012 G.O. Refunding Loan	16,555,000	-	805,000	15,750,000	835,000
2016 GO Refunding Bond	-	15,030,000	-	15,030,000	-
	<u>32,020,000</u>	<u>15,030,000</u>	<u>16,270,000</u>	<u>30,780,000</u>	<u>\$ 835,000</u>
2005 G.O. Bonds Discount	(90,748)	-	(90,748)	-	
2016 G.O. Bonds Premium	-	994,822	33,557	961,265	
	<u>\$ 31,929,252</u>	<u>\$ 16,024,822</u>	<u>\$ 16,212,809</u>	<u>\$ 31,741,265</u>	

The following is a summary of the annual long-term debt principal and interest requirements.

	Principal	Interest	Total
2017	\$ 835,000	\$ 1,157,793	\$ 1,992,793
2018	865,000	1,129,488	1,994,488
2019	890,000	1,100,164	1,990,164
2020	925,000	1,069,992	1,994,992
2021	960,000	1,038,636	1,998,636
2022-2026	5,290,000	4,683,829	9,973,829
2027-2031	6,000,000	3,736,621	9,736,621
2032-3036	7,405,000	2,567,173	9,972,173
2037-2040	7,610,000	709,198	8,319,198
	<u>\$ 30,780,000</u>	<u>\$ 17,192,894</u>	<u>\$ 47,972,894</u>

At December 31, 2016, the District had \$4,455,000 of voter-authorized but unissued indebtedness. Notwithstanding, the District has issued all of the general obligation debt authorized by its service plan.

# EAGLE BEND METROPOLITAN DISTRICT

## Notes to Financial Statements December 31, 2016

### Note 6: Tax Spending and Debt Limitations

Article X, Section 20 of the Colorado Constitution, commonly known as the Taxpayer Bill of Rights (“TABOR”), contains tax, spending, revenue and debt limitations which apply to the State of Colorado and all local governments.

Enterprises, defined as government-owned business authorized to issue revenue bonds and receiving less than 10% of annual revenue in grants from all state and local governments combined, are excluded from the provisions of TABOR. The District’s management believes a significant portion of its operations qualifies for this exclusion.

Spending and revenue limits are determined based on the prior year’s Fiscal Year Spending adjusted for allowable increases based upon inflation and local growth. Fiscal Year Spending is generally defined as expenditures plus reserve increases with certain exceptions. Revenue in excess of the Fiscal Year Spending limit must be refunded unless the voters approve retention of such revenue.

TABOR requires local governments to establish Emergency Reserves. These reserves must be at least 3% of Fiscal Year Spending (excluding bonded debt service). Local governments are not allowed to use the emergency reserves to compensate for economic conditions, revenue shortfalls, or salary or benefit increases.

The District’s management believes it is in compliance with the provisions of TABOR. However, TABOR is complex and subject to interpretation. Many of the provisions, including the interpretation of how to calculate Fiscal Year Spending limits will require judicial interpretation.

On November 3, 1998, a majority of the District’s electors authorized the District to collect and spend or retain in a reserve all currently levied taxes and fees of the District without regard to any limitations under Article X, Section 20 of the Colorado Constitution.

### Note 7: Intergovernmental Agreements

The District and the City of Aurora have entered into an intergovernmental Agreement as required by the City of Aurora Code and the District’s Consolidated Service Plan. Under this agreement, the District must obtain the approval of the City of Aurora Council prior to; (i) any inclusion of property in or exclusion of property from the boundaries of the District, (ii) any refunding of the bonds of the District which could shorten or extend the maturities of such bonds or increase the total debt service thereon (subject to certain exception) or (iii) any consolidation with any other special district.

## EAGLE BEND METROPOLITAN DISTRICT

### Notes to Financial Statements December 31, 2016

The District and the City of Aurora Water Department entered into an agreement August 22, 2007 to construct a connection to the East Cherry Creek Valley (“ECCV”) waterline. The District is to reimburse the City of Aurora \$557,089 for design and construction costs through water rate charges and a one-time down payment of \$100,000. Reimbursement for the project costs will be charged to the District based on the difference between the current City domestic irrigation rate less the City raw water rate. When the project costs have been reimbursed, the City will charge all water delivered through the ECCV connection to the District at the then current City raw water rate.

Note 8: Risk Management

Except as provided in the Colorado Governmental Immunity Act, 24-10-101, et seq., CRS, the District may be exposed to various risks of loss related to torts, theft of, damage to, or destruction of assets; errors or omissions; injuries to agents; and natural disasters. The District has elected to participate in the Colorado Special Districts Property and Liability Pool (“the Pool”) which is an organization created by intergovernmental agreement to provide common liability and casualty insurance coverage to its members at a cost that is considered economically appropriate. Settled claims have not exceeded this commercial coverage in any of the past three fiscal years.

Any excess funds which the Pool determines are not needed for purposes of the Pool may be returned to the members pursuant to a distribution formula.

The District pays annual premiums to the Pool for auto, public officials’ liability, and property and general liability coverage. In the event aggregated losses incurred by the Pool exceed its amounts recoverable from reinsurance contracts and its accumulated reserves, the District may be called upon to make additional contributions to the Pool on the basis proportionate to other members.
