

Open House at the Garden was a S U C C E S S !!

On Monday, August 26, 2013 the EB Metro District #2 sponsored an **Open House at the Garden** with approximately 40+ residents attending the informational event! Many residents came prepared with landscape questions and new design plans for their green spaces. Zach Versluis, Water Conservation Specialist, for the City of Aurora along with several TerraCare landscape professionals answered questions about drought tolerant flowering plants and grasses as well as the City's residential rebate program. Many thanks to TerraCare Landscape Company who provided the coffee bar and Wholly Cannoli for the delicious pastries and pizza.
